Awwab S. Samad

4555 Bradstone Trace, Lilburn, Georgia 30047 | 470-731-9962 |asamad8@gatech.edu |U.S. Citizen

Objective

Computer Engineering student at Georgia Tech seeking a Summer 2027 internship in software development, embedded systems, or computer engineering. Strong foundation with experience using Python. Driven to apply analytical and engineering skills to real world projects, learn new technologies, and contribute effectively within collaborative engineering teams.

Education

Georgia Institute of Technology | Atlanta, GA *August 2026 – Present*
Bachelor of Science in Computer Engineering Expected Graduation, May 2029

Georgia State University| Atlanta, GA *August 2025 – May 2026*
Transfer with 52 Credit Hours, GPA 4.11

Skills

Programming: Python, Java
Computer Science: Object-Oriented Programming, Data Structures, Algorithms
Technical: Debugging, Technical Analysis, Performance Optimization
Professional: Teamwork, Communication

Experience

Walmart| Lilburn, GA *May – August 2026*
Front End Associate
Walmart is a global retailer providing affordable products and services through thousands of stores, eCommerce platforms, and mobile technology.

- Managed 2 departments in a fast-paced environment while maintaining accuracy and attention to detail.
- Communicated effectively with customers and coworkers to identify needs and develop appropriate solutions.
- Adapted quickly to changing priorities and demonstrated reliability while meeting daily responsibilities.

Projects

Automated Data Management and Sorting Tool | Python *January 2026 – April 2026*

- Developed a customized Python script to clean and organize large data sets efficiently, decreasing data retrieval time.
- Implemented algorithmic data structures to optimize program runtime and memory usage.
- Conducted rigorous software testing and debugging to handle edge cases and ensure system stability.

Leadership & Involvement

Georgia State University| Atlanta, GA *October 2025 – May 2026*
Student Library Resource Assistant

- Assisted students and faculty in navigating digital archives and media resources.
- Collaborated with peers to organize study spaces and streamline resource checkout workflows for over 200 daily visitors.
- Communicated technical printing and troubleshooting instructions clearly to diverse student populations.

Relevant Coursework

ECE Discovery Studio: Analysis, development of understanding, and testing recognition of the principles of electrical and computer engineering; Developing communication, soft and hard skills, and time management.
Linear Algebra: Matrix Operations, Vector Spaces, Linear Transformations, and Eigenvectors with applications to computational modeling and algorithms.
